2018 Annual Meeting
September 6, 2018
What is Community Choice Aggregation?

CCA is a “fascinating and I think very constructive force to drive the fulfillment of the big three goals that we have here of affordability, decarbonization and reliability.”

- Pat Wood, Member of CPUC “Green Book” Ad Hoc Advisory Committee, former chair of the Federal Energy Regulatory Commission
Operational CCAs

2018

Monterey Bay Community Power
San Jacinto Power
Rancho Mirage Energy Authority
Valley Clean Energy
East Bay Community Energy
Solana Energy Alliance
King City Community Power
San Jose Clean Energy
CCA Service Growth in California
CCA Policy Lens

Fair Competition
Create a Level Playing Field

Cost Allocation
Prevent Cross-Subsidization

Jurisdiction
Ensure CCA Autonomy
Regulatory Priorities

- Integrated Resource Planning Framework (R.16-02-007)
- AB 117 – reentry fees and financial security requirements (R.03-10-003)
- Resolution E-4907
- Petition for Modification of the Code of Conduct (R.12-02-009)
- Non-Bypassable Charge for Above-Market Costs Associated with Tree Mortality Power Purchase Agreements (R.16-11-005)
- Customer Choice Project
- Resource Adequacy Program, Consider Program Refinements, and Establish Annual Local and Flexible Procurement Obligations for the 2019 and 2020 Compliance Years (R.17-09-020)
- Affordability of Utility Service (R.18-07-005)
- Disconnections & Reconnections (R.18-07-006)
- Protests to Advice Letters

**Power Charge Indifference Adjustment** (R.17-06-026)
A key aspect of the value proposition offered by MCE and other California CCAs is the requirement that renewable and clean energy be a major component of the customers' power supply mix.

-Moody's Investors Services
CCA is...

• Taking action to address climate change;

• Building a better future through innovation and collaboration;

• Helping local communities solve problems and invest in solutions;

• Bringing clean energy home.

Moving Forward Together
