Local governments in more than 200 cities, towns and counties throughout California have chosen to participate in Community Choice Aggregation (CCA) to meet climate action goals, provide residents and businesses with more energy options, ensure local transparency and accountability, and drive economic development. To learn more about the benefits of Community Choice Aggregation for your home or business, contact your local CCA program.
The California Community Choice Association’s mission is to support the development and long-term sustainability of locally-run CCA electricity providers throughout California.

* Not all towns/cities within a county are served by the local CCA program. Please visit individual agency websites for more detailed service area information. To learn more about CalCCA please visit our website at cal-cca.org.
